

RENEWABLE ENERGY

GREEN ENERGY SYSTEM

Our line of intention

**TO HELP THE MIDDLE CLASS PEOPLE
AS MUCH AS WE CAN .**

**TO USE THE RENEWABLE RESOURCES
AS MUCH AS POSSIBLE .**

**TO PROTECT THE ENVIRONMENT FROM
THE POLLUTION .**

BATTERY AND MILEAGE

PROS, CONS

USES

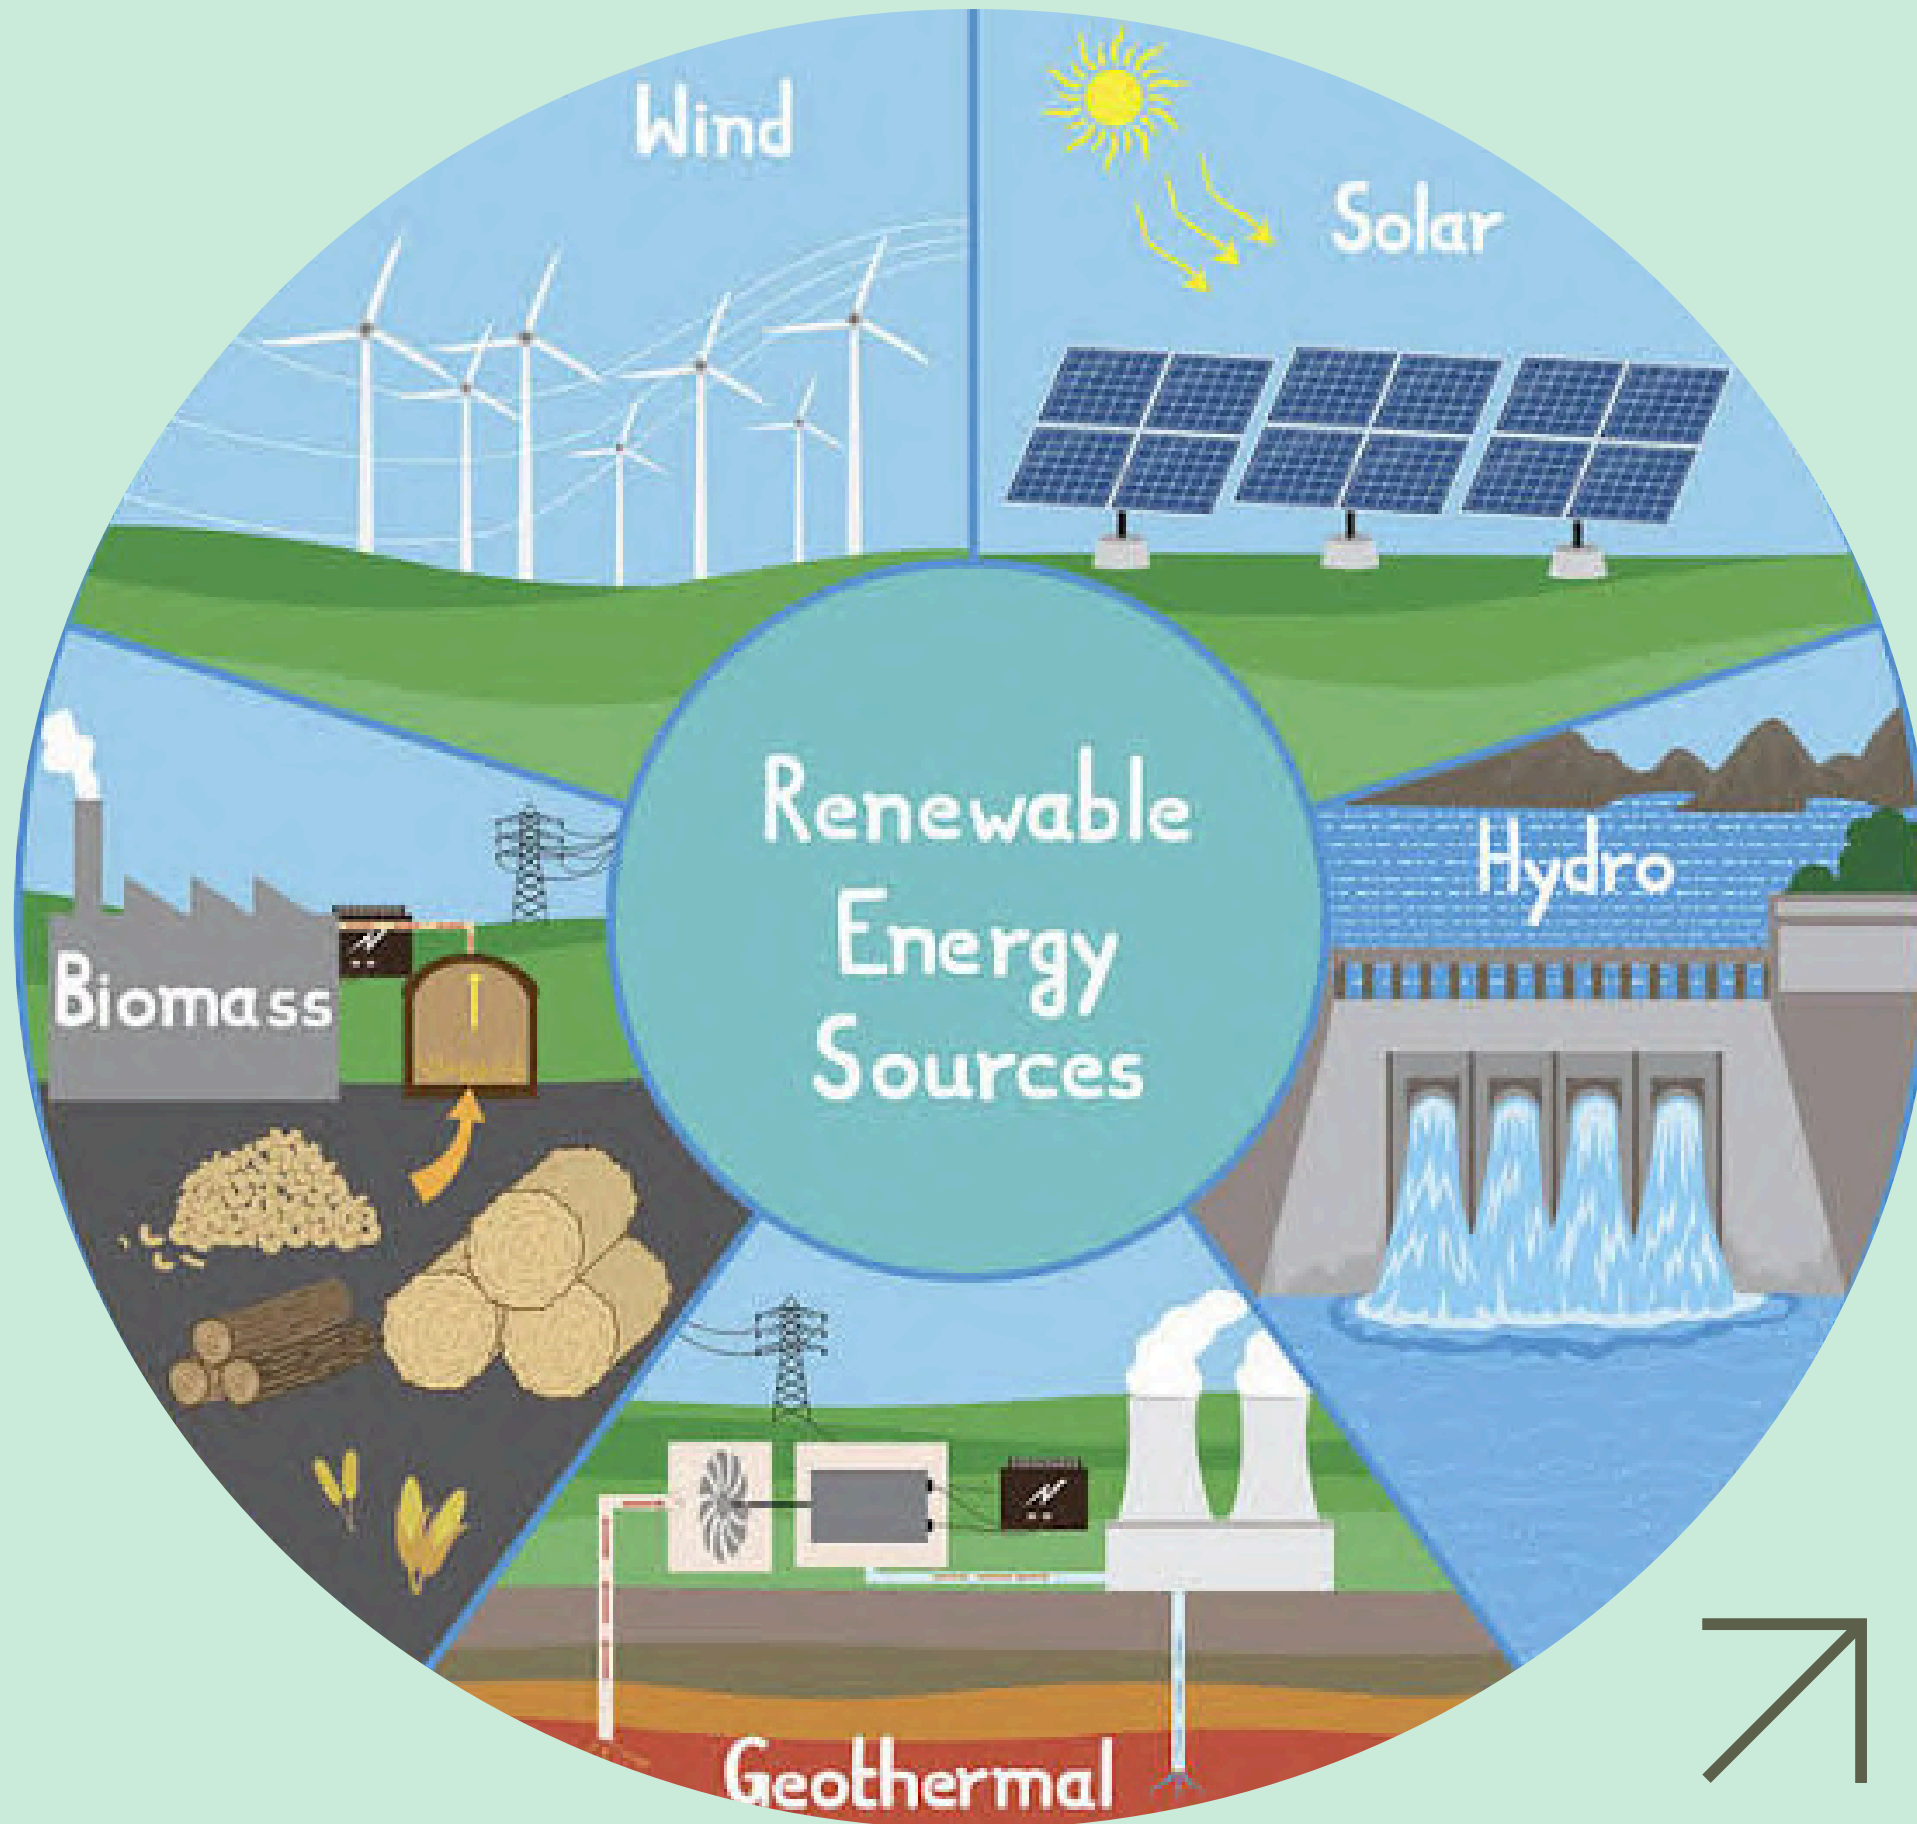

CONCLUSION

WHAT IS RENEWABLE ENERGY

RENEWABLE ENERGY IS MEANT BY
NATURAL ENERGY OR SUSTAINABLE
ENERGY WHICH COMES FROM NATURAL
RESOURCES SUCH AS WIND, WATER,
SOLAR, TIDAL, ETC..

MAJOR TYPES 🌍

- **SOLAR ENERGY**
- **WIND ENERGY**
- **HYDRAL ENERGY**
- **GEO THERMAL ENERGY**
- **BIO MASS ENERGY**

OUR THOUGHT TOWARDS THE SOCIETY

TO SAVE MONEY BY USING THE
SOLAR ENERGY FROM THE
SUN LIGHT .

TO PROTECT THE PEOPLE FROM
RAINY AND SUMMER SEASONS
DUE TO HEAVY RAIN AND TEMP .

SOLAR ELECTRIC BIKE

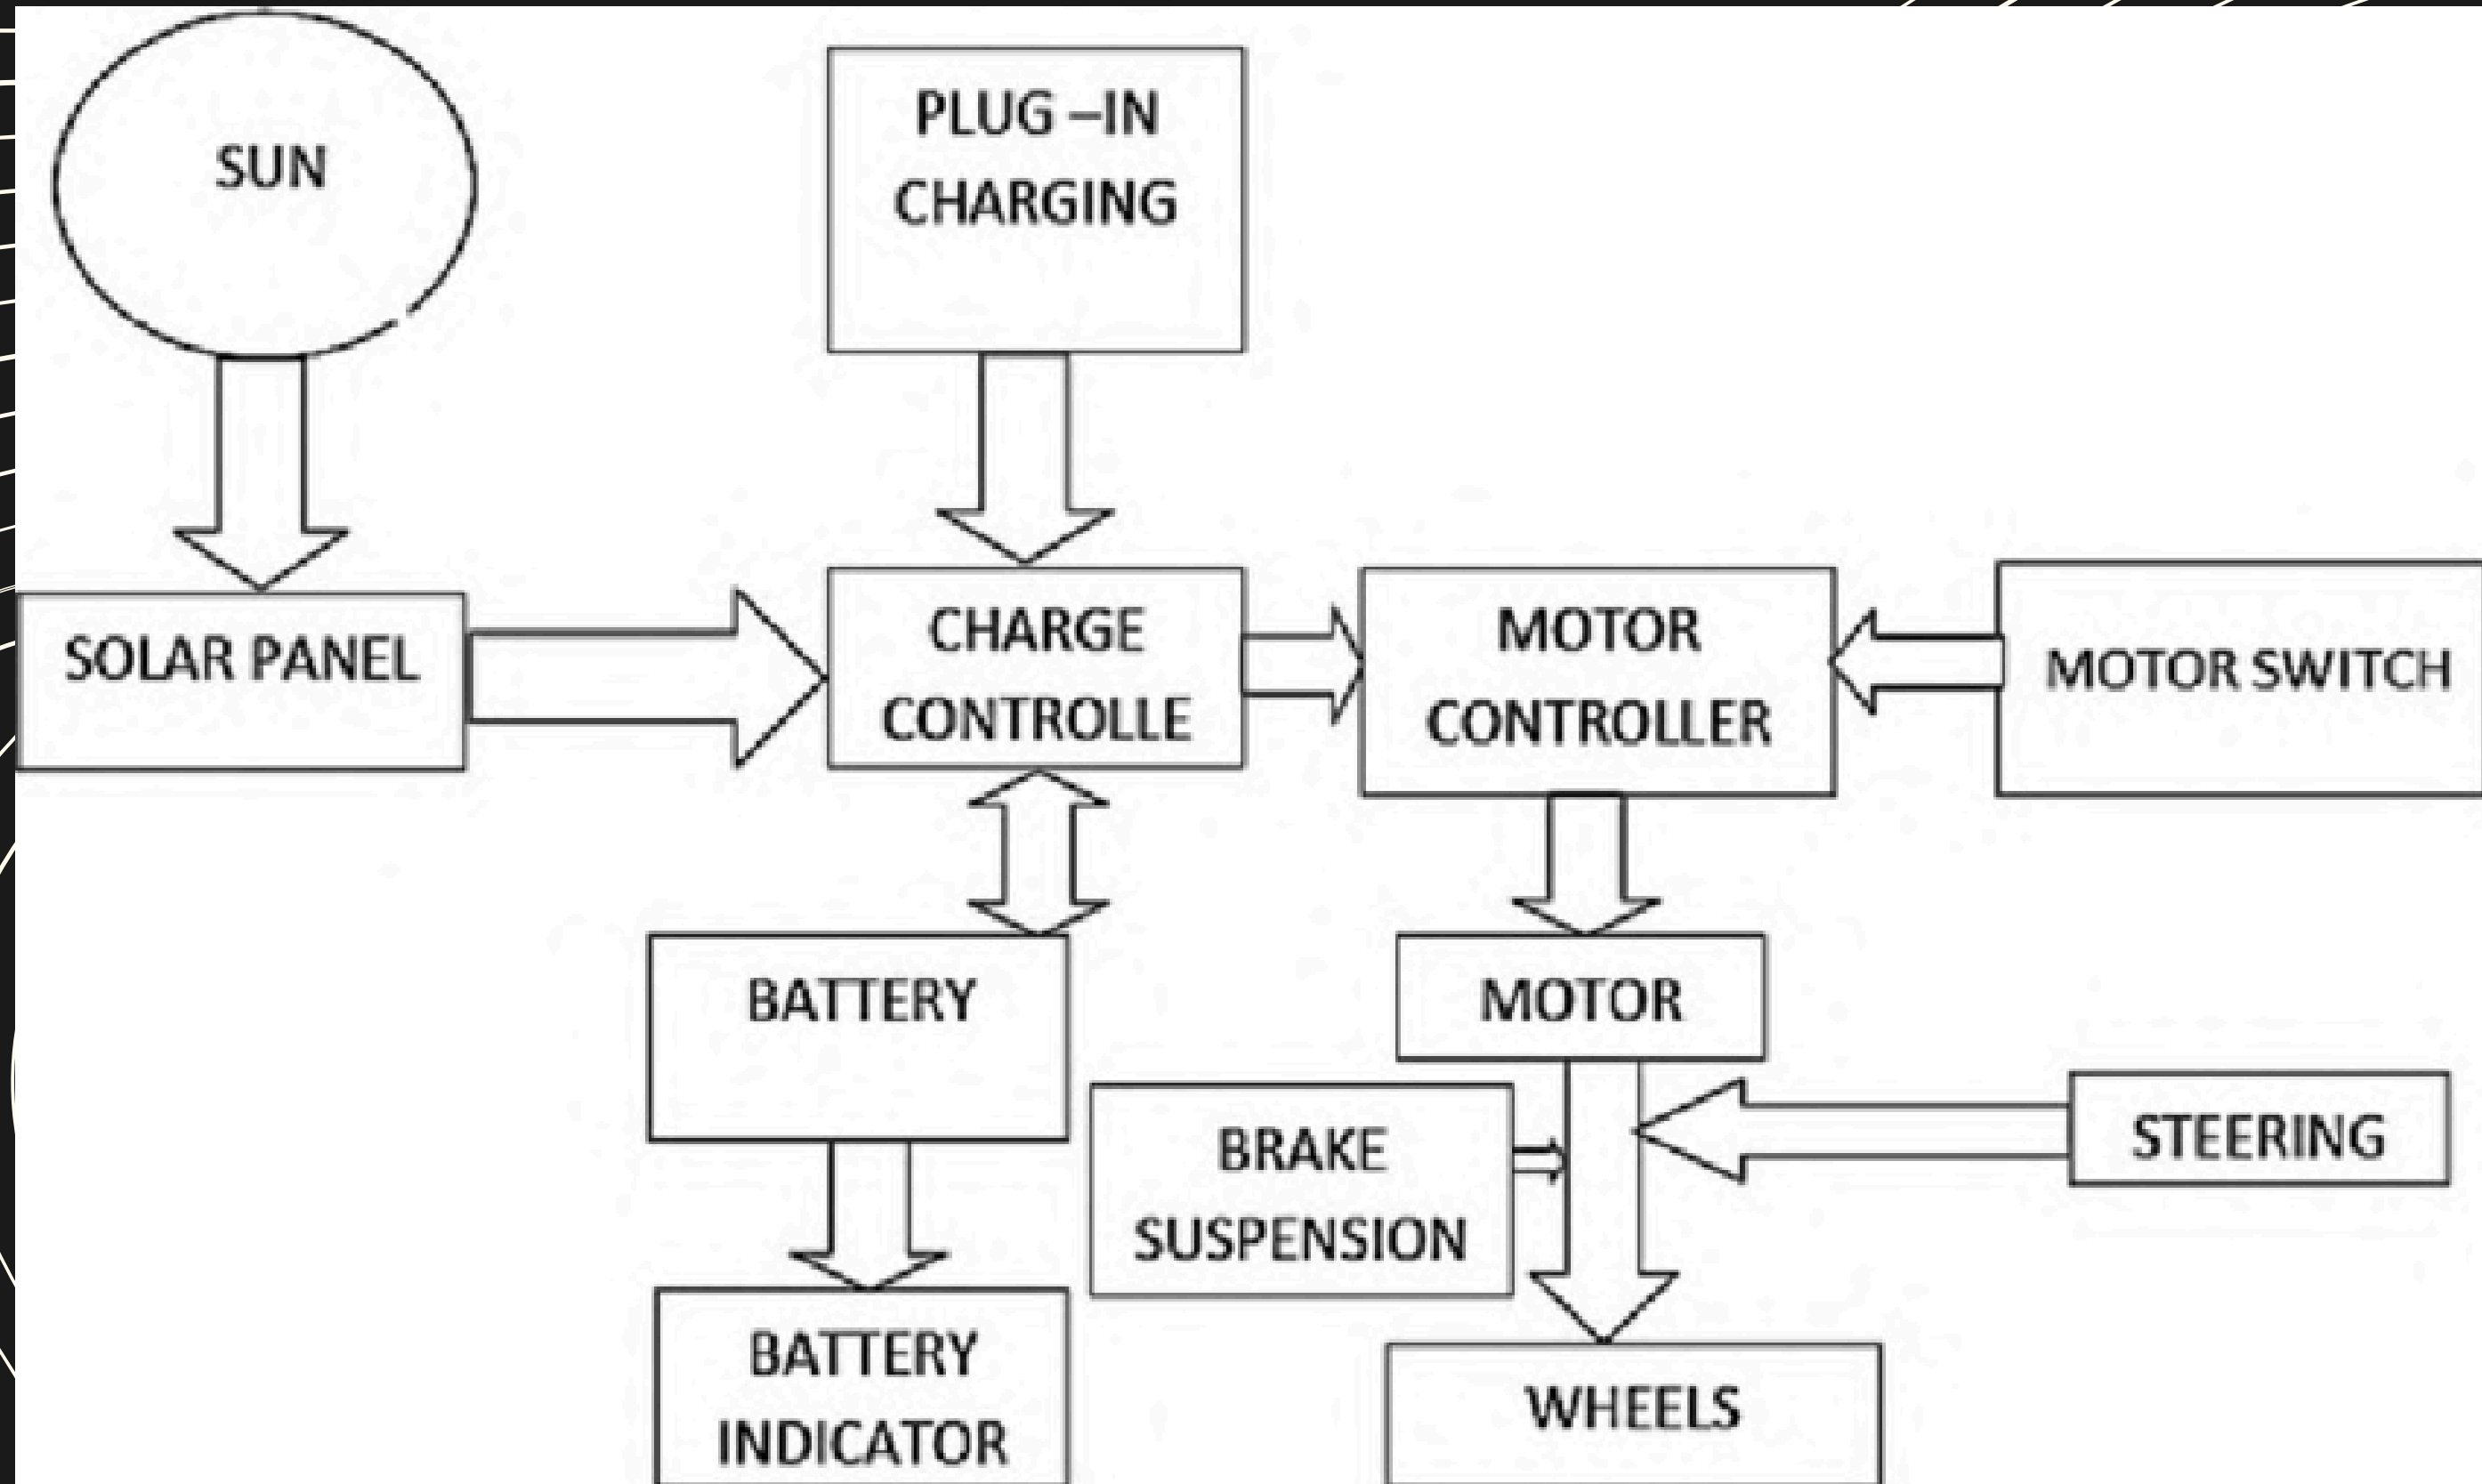

PARTS

- 01 LEAD ACID BATTERIES
- 02 SOLAR PANELS
- 03 DC MOTOR
- 04 SENSORS

BLOCK DIAGRAM

BATTERY AND MILEAGE

- The battery lasts upto 4 to 12 years depending upon the battery quality , if the battery is good then the lifespan of the battery increases .
- It might gives 45-60 miles on a single charge of one battery and extra mileage will depend upon the quality of bikes we have .

PROS

1. REDUCE THE USE OF FOSSIL FUELS

2. LIFE SPAN IS HIGH

3. IT REQUIRES LESS MAINTANANCE COST

4. REDUCES THE POLLUTION

CONS

1. INVESTMENT IS HIGH

2. IT TAKES MORE TIME TO CHARGE

3. LESS ENERGY (IN RAINY SEASON)

OUR NEW THOUGHT

BY CONSIDERING OUR LOOPS WE HAVE
CREATED A NEW IDEA

◆ **PIEZO**
ELECTRICITY

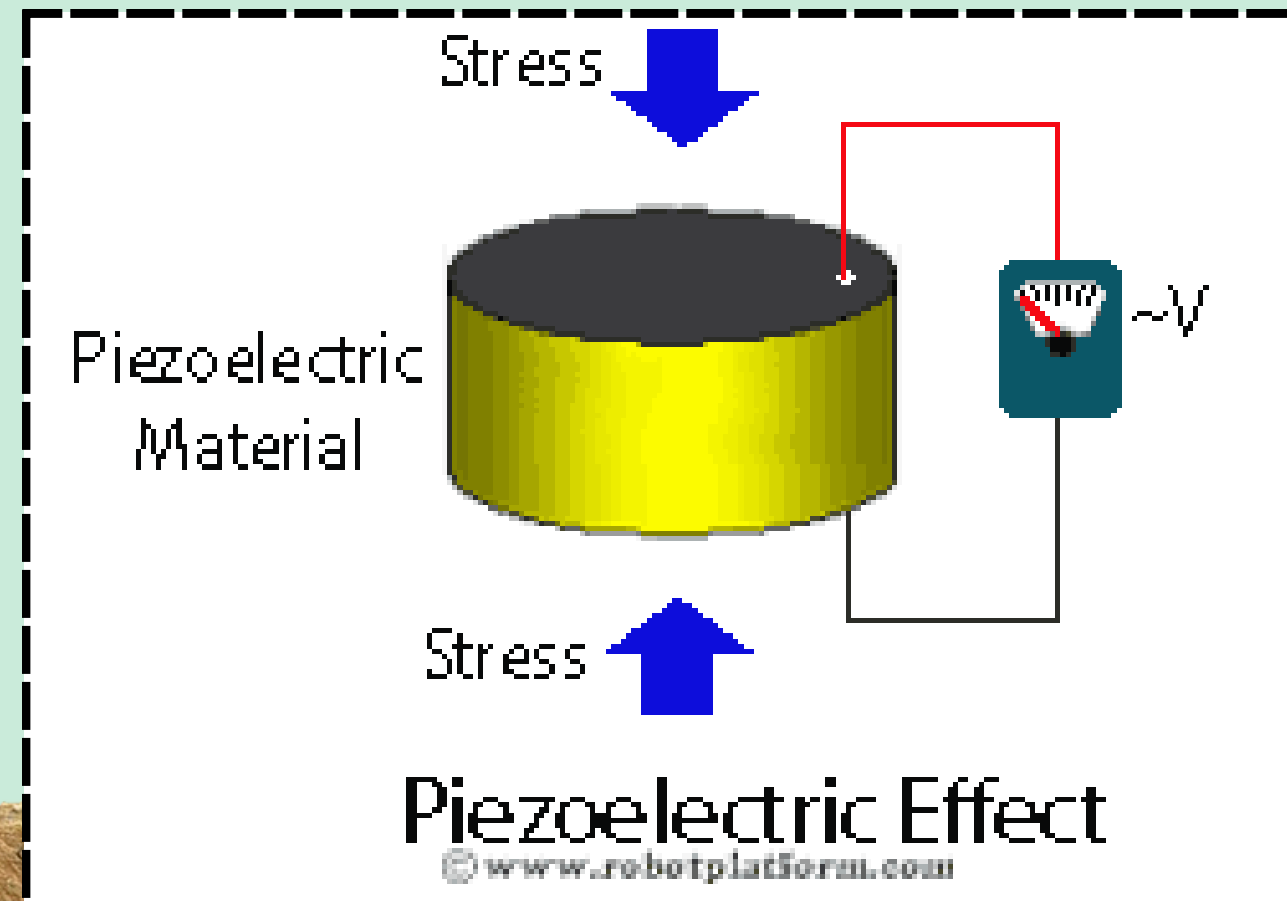

◆ **LINEAR WIND**
TURBINES

PIEZO ELECTRICITY

- PIEZOELECTRICITY IS THE ABILITY OF CERTAIN MATERIALS TO GENERATE ENERGY WHEN SQUEEZED OR PRESSED.
- IT IS THE PROCESS OF USING CRYSTALS TO CONVERT MECHANICAL ENERGY INTO ELECTRICAL ENERGY.

UNLEASHING THE POWER OF LINEAR WIND TURBINES

THE WIND TURBINES WILL BE PLACED ON THE ROAD DIVIDERS SO THAT WIND FLOW FROM BOTH SIDES OF THE HIGHWAY WILL BE ACTING TANGENTIALLY IN OPPOSITE DIRECTIONS ON BOTH SIDES OF THE TURBINE.

USES

◆ SO THAT THESE ENERGY CAN BE PASSED THROUGH THE ELECTRIC WIRES TO A SMALL CHARGE STATION AS SHOWN IN PICTURES .

CONCLUSION

GREEN ENERGY SYSTEM

OUR INTENTION IS TO REDUCE THE POLLUTIONS AND TO USE ENERGY AS MUCH AS POSSIBLE .

thank you

any queries?
